## Core Competencies

IEC Tech Inc. is dedicated to anticipating and addressing the evolving challenges of our clients. We bring a proactive approach, ensuring that we meet emerging business needs by delivering top-tier subject matter experts within our core areas of expertise.

- Project & Program Management
- Section 508 Compliance Testing for ICT Systems and Digital Content
- Accessibility Training Development & Delivery
- Custom Software Development
- Cloud Architecture & Modernization
- Zero Trust Security & Data Protection
- SharePoint & Workflow Automation
- AI & Machine Learning Solutions
- Adaptive Project Leadership (Scrum, SAFe, Waterfall)

## Differentiators

- **Scalable, Agile Delivery:** Leverages a strong professional network and trusted technical partners to build high-performing teams tailored to client needs.
- **Scalable Innovation:** Solutions that evolve with your needs, leveraging cutting-edge technologies like AI and Zero Trust.
- **Custom Solutions:** Tailored technology designed to address the specific challenges of businesses and government agencies.
- **Expert Network:** A team of highly skilled professionals delivering solutions in AI, cloud, accessibility testing, and automation.

## Past Performance

- **Sevatec for U.S. Citizenship & Immigration Services (USCIS) (W2):** Led the development of access control software solutions using PIV cards, enabling secure access across multiple government agencies. Took charge of user acceptance testing and guided the product from development to deployment. Built Section 508 compliance into every phase, using tools like WAVE and Lighthouse to ensure accessibility and compliance with federal standards.
- **EPMPoint for Washington Headquarters Service (W2):** Developed and implemented Power Apps solutions for government agencies, overseeing projects totaling \$1.4 billion. Integrated Section 508 accessibility testing into Agile development workflows. This included automation solutions for the Facilities Services Directorate, Office of Small Business Programs, and the Service Requirements Review Board, improving workflow efficiency and collaboration across multiple departments. Directed SharePoint and M365 enhancements, streamlining document management and workflow automation, leading to improved operational efficiency within federal agencies.
- **IBM for Transportation Security Administration (TSA) (W2):** As an Agile Coach and Project Manager, delivered software applications for the Federal Air Marshal Service, including real-time flight itinerary tracking, incident monitoring, and equipment issuance systems. Integrated WebEOC and FirstNet solutions to improve coordination and mission-critical communication.
- **Higher Logic (W2):** Managed client relationships and led initiatives to support corporate certification programs in the SaaS sector. Achieved recognition for exceptional sales performance and client satisfaction. Led efforts to streamline operations and improve certification management, significantly enhancing the customer experience.
- **Healthcare Businesswomen's Association (W2):** Led key stakeholder management and corporate relations efforts, driving sponsorship generation and supporting corporate growth. Provided executive reporting and operational support, contributing to the organization's strategic initiatives.

## Company Data
